1. The following is an examiner's statement of reasons for allowance:

The invention relates to a process of making a co-processed modified starch/flour mixture and composition wherein the co-processed cooked modified starch/flour composition has a greater weight percentage of modified starch than flour. The process for preparing the cooked modified starch/flour composition comprises the steps of mixing a modified starch with flour to form a starch/flour blend, cooking the starch/flour blend to produce a cooked homogeneous modified starch/flour composition and drying the co-processed composition to a powder wherein the weight ratio of the starch is great than the weight ratio of flour. The prior art fails to teach and/or suggest providing a cooked co-processed starch /flour composition as claimed which is new and unobvious over starch/flour blends of the prior art.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
